

# COMMUNITY CONSULTATION

**Treloar College (Holybourne Campus, Nr Alton)**  
Student Common Room (access via London Rd)  
**Tuesday 22 July 2008 2.30pm – 8pm**

Treloar College is a specialist education facility for students aged 16 and over with physical disabilities.

The Trust is looking to improve the range and arrangement of facilities for students at the Holybourne site.

To help inform this process, a Community Consultation event is being held to seek comments and thoughts from a variety of local stakeholders and residents on possible future proposals.

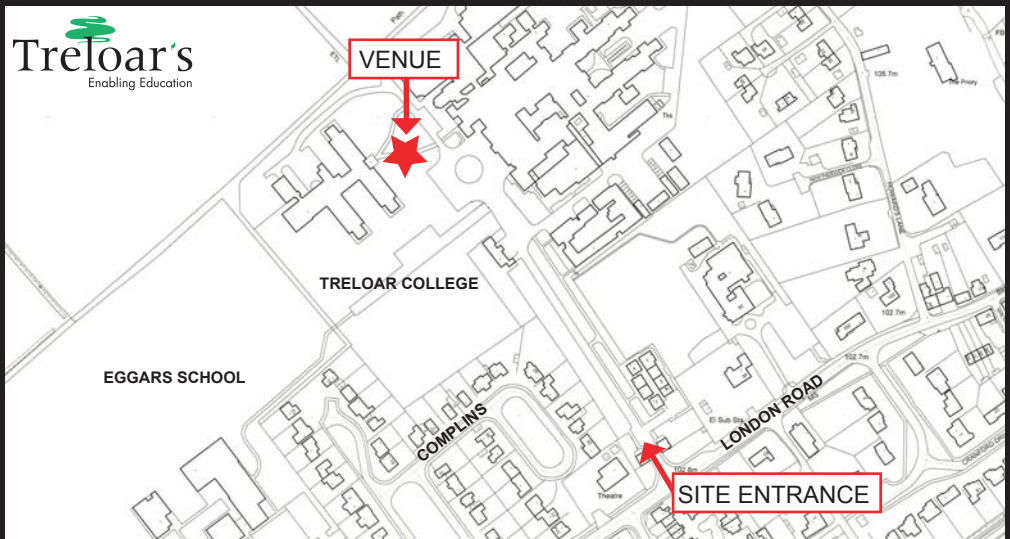

## PROPOSALS FOR THE COLLEGE CAMPUS, HOLYBOURNE

The Trust intends to replace many of the ageing 1960s buildings with purpose – built facilities that meet current student needs and educational practices.

The Trust is also exploring the possibility of relocating part or all of its junior school operation to the Holybourne site.

### LIKELY DEVELOPMENT PROPOSAL BENEFITS

- More modern, efficient residential and educational facilities that meet student current needs;
- Secured long-term future for the establishments;
- Improved traffic circulation routes;
- Landscape enhancement;
- Reduced hardstanding and incorporation of sustainable urban drainage systems;
- Incorporation of energy efficient building technologies

Comment forms will be available on the evening. If you are unable to attend and wish to make comments please send them to Stephen Young at [s.young@pvprojects.com](mailto:s.young@pvprojects.com).
